Our October chapter meeting was held at the Salt Palace as we participated in the INTERFACE cybersecurity conference and expo. This was an outstanding event and special thanks goes out to their team for providing us with a meeting room, lunch and allowing us to have a booth during their expo.

A very special thank-you goes to the Salt Lake City Police Department Bomb Squad for filling in at the last minute as our guest speakers for our chapter meeting.

SAFETY TIP

Smoke Detectors Save Lives. Our October chapter meeting safety tip was a reminder to change the batteries on you smoke detectors at least once per year to ensure that they work when they are needed.

It is also recommended that you test your smoke detectors at least once per month by pressing the test button.

But did you know that smoke detectors also have an expiration date? Check your detectors to make sure they have not expired and replace those that have to ensure you and your family are protected this holiday season.
